

Certification Age Breakdown

- Hype Her Hoops tournaments are grade based. Under these rules, any player who shows current proof of grade (report card, progress report, or school ID) is eligible to play for that grade level.
 - Example - A player playing 13U/7th grade who shows proof that they are currently in 7th grade regardless of their birthdate is eligible to play.
 - However, birthdate is still relevant. For example, please note that a player who is in 8th grade could still conceivably play 13U/7th Grade division if he fits into the correct age range. Players who are born in the correct birth date range for a division but are in an advanced grade, are still eligible to play in that particular division.
 - See the ranges below for age exceptions:
